

# Montana Digital Academy Agreement

The Montana Digital Academy, MTDA, is an option for students to take high school courses for credit recovery or as an elective. Students and Parents are primarily responsible for questions, issues, or problems dealing with the coursework, websites, contacting the instructor, keeping up with their assignments, or other issues that may arise. Chinook High School staff members are not responsible for any issues with the Montana Digital Academy. Chinook High School registers students, provides school time for coursework, and applies earned credits to the student's high school transcript.

A student readiness assessment should be reviewed by parents. It is available at <http://montanadigitalacademy.org/images/studentreadinessdraft042810.pdf>

I have read the rules, regulations, and guidelines for taking on-line courses through the MTDA. My signature indicates I understand the on-line process of taking courses and that I agree with the terms and conditions of taking courses from the MTDA.
